

TJ 6500

A SERIOUS WORKHORSE THAT GETS THE JOB DONE

Every Capacity truck that rolls off the line is designed and engineered with one goal in mind: to maximize uptime. From the one-piece structural steel frame to the interior of the cab, every inch of this TJ 6500 is designed to deliver brains and brawn.

The TJ 6500 features a tandem axle and a GCVWR of up to 125,000 pounds, making it the perfect Trailer Jockey for off-highway warehouse use or any work area with less-than-ideal surface conditions. The available DOT certified model is ready to be a reliable workhorse in day-to-day, over the road operations. Capacity is **ISO9001 Certified**.

DESIGN LEADER
RUGGED STRENGTH
PROVEN POWER

THE ORIGINAL TRAILER JOCKEY

Capacity's ever-popular TJ Series terminal truck is known worldwide as a proven workhorse that is up to the job, load after load, year after year.

For nearly 50 years, there has been a Capacity Terminal Truck taking command of a job. From ports and rail yards to shipping and distribution terminals, the Capacity TJ 6500 is a true partner and an extension of your operation.
